## PLANTRONICS CS55H HOME EDITION™

### Enjoy hands-free mobility while conducting business at home.

Walk and talk while working at home with the Plantronics CS55H Home Edition wireless headset system for cordless or corded home phones. This hands-free headset transforms your home office environment by providing you with freedom of mobility, crystal clear conversations, and personalized all-day comfort — enhancing your ability to multitask with ease.

- **Room-to-room mobility.** Work outside, pour a cup of coffee—with a range of up to 300 feet these activities won't interfere with important calls.
- **Interference-free wireless.** Voice-dedicated DECT™ 6.0 (1.9GHz) wireless technology provides uncompromising sound and limits interference from wireless networks or home appliances.
- **Talk up a storm.** With up to 10 hours of battery life/talk time and the ability to answer from the headset, you won't miss a call even when you're away from your phone.
- **Superior sound.** Enjoy crystal clear conversations with an extended boom and noise-canceling microphone that filter out background noises and adjust your talking and listening volumes.
- **Choice of wearing styles.** Sleek and comfortable, the headset can be worn over-the-ear or over-the-head.
- **Simple to use.** With easy to find one-touch controls and the IntelliStand™ feature you can easily answer, end and mute calls.

*Home phone not included*
