

Plantronics Explorer™ 220 Bluetooth® Headset

Plantronics Explorer 220 fuses *Bluetooth* wireless technology with effortless call control for a true hands-free experience. Plantronics Explorer 220 incorporates all call features—volume, call answer/end, last-number redial, and voice-activated dialing—into two separate buttons for ease of use. Delivering up to six hours of talk time, the Explorer 220 provides the convenience you want and the mobility you need to suit your busy, active lifestyle.

- All-day comfort in a sleek, lightweight design—weighs less than an ounce
- Fits comfortably and securely on either ear
- Simple to use—easy to put on and take off, easy to pair, easy to answer calls
- Talk throughout the day with up to 6 hours talk time and up to 200 hours standby time
- Freedom to roam up to 33 feet from your *Bluetooth* device
- Unique speaker design optimizes sound quality
- QuickPair™ for fast and easy pairing with *Bluetooth* phones

Plantronics Explorer 220 QuickPair™ Pairing Instructions

Headsets with QuickPair are automatically in pairing mode when powered on until paired with the first device.

First Pairing:

Step 1: Start with headset powered OFF. Hold down headset Call Control button for four seconds—release when Indicator Light flashes red and blue. Headset is now discoverable. Headset will remain discoverable until it is paired with its first device.

Step 2: Use your device's menu to enter its pairing mode and select **220Plantronics** on the display. **0000** is the pairing passkey.

Subsequent Pairings:

To manually place headset in Pairing Mode, begin with the headset turned off, then press the call control button for 8-10 seconds until the headset indicator light flashes red and blue.

The headset is now in pairing mode for the next 60 seconds. To pair with a phone, repeat **Step 2**.

For more pairing assistance please visit the Plantronics interactive On-Line Pairing Guide at www.plantronics.com/easytopair

Easy Headset Reconnection for Previously Paired Devices

If the Bluetooth phone and your Plantronics Bluetooth headset have been out of range for an extended amount of time or if the headset and/or phone were turned off and do not automatically reconnect, simply do a short press of the call control button and the devices will reconnect.

PLANTRONICS
SOUND INNOVATION™

Sound innovation for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic words from the moon: "That's one small step..." Since then, we've set industry standards for headsets from aviation to space travel. Today, we're the headset of choice in mission-critical applications such as air traffic control and 911 dispatch. This history of sound innovation is the basis for every product we build—whether it's for work, home or on the go.

Plantronics. Sound Innovation.
