

MOBILE PHONE STATION FOR COLLABORATION

BENEFITS

- Empower your mobile-first users by transforming their smartphone into a desktop collaboration tool
- Give users freedom of choice—compatible with iOS and Android smartphones via Bluetooth®
- Provide desk phone convenience with built-in dial pad plus headset and speakerphone options
- Convenient headset integration. Voyager and Blackwire series headset options are available

POLY ELARA 60 SERIES

Give your mobile-first employees what they really want: Smartphone freedom. Desktop convenience. And easier collaboration with Microsoft Teams. The Poly Elara 60 Series mobile phone station does it all. Now that call doesn't have to end when they get to the office. Touch down and launch Microsoft Teams with a touch of a button. Keep the conversation going with the headset and speakerphone options. Superior audio means conversations (and music) are crystal clear, and the mobile phone stays charged all day. Best of all, deployment couldn't be easier—simply plug it in and pair a mobile phone. Less work for IT. More flexibility for your mobile-first users.

- Manage Microsoft Teams conferences and view notifications
- Adjustable viewing plate for audio, video, chat, or web conferences
- Built-in headset charging capabilities using integrated cradle
- Wired or multi-coil wireless phone charging while you talk
- Color LCD screen displays devices, call and charge status, and settings

POLY ELARA 60 SERIES

(Smartphone not included)
