What's in the package

Blackwire 725 Headset with inline controller

Carrying case

Load software

Some softphones require the installation of Plantronics Hub for Windows and Mac to enable headset control (answer/end and mute) functionality.

Install Plantronics Hub for Windows and Mac onto your computer by visiting plantronics.com/software.

Plantronics Hub	Windows and Mac
Call control for softphones	X
Update firmware	X
Turn features on/off	X

Basics

 <p>Answer/End button Answers or ends a call</p>	<p>Incoming call </p> <p>Flashes green</p> <p>On a call </p> <p>Solid green</p>
 <p>Volume button</p>	<p> →</p> <p>Increases the listening volume</p> <p>← </p> <p>Decreases the listening volume</p>
 <p>Mute/Unmute button Mutes/unmutes the headset microphone</p>	<p>Solid red when muted</p>
<p>ANC</p> <p>Active Noise Cancelling (ANC)</p>	<p>ANC will reduce unwanted noise. Slide the switch towards ANC to activate.</p>

Smart Sensor technology

Sensors detect whether or not you are wearing the headset. Sensors are located in the speaker capsule on the microphone boom side.

Smart Sensor feature	Function
<p>Auto answer call When you are not wearing your headset and have an incoming call on your PC, put on the headset and the call will be answered automatically. You do not have to press the Answer/End button.</p>	<p>Incoming call </p> <p>Flashes green</p>

Wearing your headset

- Fit headset 1 Slide the headband until it fits comfortably over both ears.

- 2 If still too tight, stretch the headband for better comfort.

- 3 For optimal voice clarity, bend the boom and place the microphone close to mouth.

Daily use

Plantronics software

NOTE For call control and mute functionality, certain softphones require Plantronics software. See plantronics.com/software.

Connect PC and call

- 1 Load Plantronics Hub software by visiting plantronics.com/software and clicking on "Download".
- 2 Connect the headset to the USB port of the computer. The headset will automatically power on.

- 3 Check your audio settings. Confirm the speaker and microphone settings for your PC softphone are set to Plantronics 725.

- **PC audio setup for Windows 7 and Windows 8**

Go to **Control Panel > Sound > Playback** tab and set the Plantronics 725 device as the Default Communications Device.

- **PC audio setup for Windows XP**

Go to **Control Panel > Sound and Audio Devices**, and in the Audio tab set the Plantronics 725 device for the Sound Playback.

- 4 Place a call using your softphone software.

ANC

Active Noise Cancelling (ANC) reduces unwanted noise.

Slide the switch towards ANC to activate.

Incoming/Outgoing calls

- 1 **To place a call**
Dial number using your softphone software application.
- 2 **To answer a call**
 - Put on headset to answer call with Smart Sensor technology or,
 - If already wearing headset, press the Answer/End button
- 3 **To end a call**
Short press the Answer/End button.

Adjust your headset volume

Listening volume

- 1 Press the volume up button  on the headset inline control to increase listening volume.
- 2 Press the volume down button  on the headset inline control to decrease listening volume.

- Mute a call
- 1 During a call, press the mute button on the headset inline control to mute the microphone. When mute is on, the mute LED is solid red (you will still be able to hear the caller).

- 2 To turn mute off, press the mute button again.

Troubleshooting

Headset

I cannot hear caller.

Listening volume is too low. Press the volume up button on the headset.

The USB headset is not set as the default audio device. Use the audio settings in your sound control panel/preferences to select your headset as the default audio device.

For Windows XP systems

- Go to Control Panel > Sounds and Audio Devices > Audio tab.
- Select your headset as the "Sound playback" default device.

Supported Operating Systems: Windows Vista, Windows 7, Windows 8, 8.1

- Go to Control Panel > Sound
- Highlight the headset, select the Set default > Default Communications Device from the drop-down list and click OK.

For Mac OS X

- Choose Apple menu > System Preferences > Sound > Output tab.
- Select your headset in the "Select a device for sound output" window.

Callers cannot hear me.

Headset is muted. Press the mute button to unmute the microphone.

Headset microphone boom aligned incorrectly. Align the headset boom with your mouth.

The USB headset is not set as the default Voice device. Use the audio settings in your sound control panel/preferences to change the input device.

For Windows XP systems

- Go to Control Panel > Sounds and Audio Devices > Audio tab.
- Select your headset as the "Sound recording" default device.

Supported Operating Systems: Windows Vista, Windows 7, Windows 8, 8.1

- Go to Control Panel > Sound > Recording tab.
- Highlight the headset, select the Set default button and click OK.

For Mac OS X

- Choose Apple menu > System Preferences > Sound > Input tab.
- Select your headset in the "Select a device for sound input" window

The sound in the headset is distorted.

Lower the listen volume on your softphone until the distortion disappears.

I can hear an echo in the headset.

Adjust volume on headset.

The other headset I was using to listen to music does not work any more.

The USB headset will set itself as the default audio device in Windows. Use the audio settings in your sound control panel/preferences to change the audio device.

For Windows XP systems

- Go to Control Panel > Sounds and Audio Devices > Audio tab.

- Under "Sound Playback", change the default setting from your headset to your device choice.

Supported Operating Systems: Windows Vista, Windows 7, Windows 8, 8.1

- Go to Control Panel > Sound > Recording tab.
- Highlight your device choice, select the Set default button and click OK.

For Mac OS X

- Choose Apple menu > System Preferences and click Sound.
- Click Output, and then select "Internal Speakers" or your device choice.

Smart Sensors

My headset stops responding to button presses.

When a PC goes into standby or hibernation, the USB headset is no longer powered on. Ensure your PC is in an active state.

The "Auto answer call" function is not working.

Make sure the speaker capsule is placed on your ear so the ear cup makes good contact with your ear.
