Registering Your Product Online

Visit plantronics.com/productregistration to register your product online so that we can provide you with the best possible service and technical support.

Technical Assistance

Visit our web site at plantronics.com/support for technical support including frequently asked questions, compatibility and accessibility information. The Plantronics Technical Assistance Center (TAC) is also ready to assist you. Dial (800) 789-4971.

Features

- Mute/Unmute LED
- Volume Up
- Volume Down
- Answer/End

WARNING Do not use headphones/headsets at high volumes for an extended period of time. Doing so can cause hearing loss. Always listen at moderate levels. See plantronics.com/healthandsafety for more information on headsets and hearing.
Powering On

Powering on the Blackwire C210-M and C220-M

The USB headset is automatically powered on when inserted into the USB port of the computer.

2. Adjust the Headband

2.1 Lengthen or shorten the band until it fits comfortably. The foam cushions should sit comfortably over the centre of your ears.

3. Adjust the Boom and Microphone

3.1 Rotate the boom so it is aligned with your mouth.
3.2 Shorten or lengthen the microphone so it is approximately two finger widths from the corner of your mouth.

Headset Features

1. Adjustable Headband
2. Ear Cushion
3. Receiver
4. Boom
5. Headset Cord
6. Noise-Cancelling Microphone
**Using Your Headset**

**Answering/Ending/Making Calls with Microsoft Office Communicator**

To make a call, select a contact or dial the number via Microsoft Office Communicator.

To answer or end a call, simply press the call answer end button.

**Adjusting Volume**

To increase listening volume, press the volume up (+) button. To decrease listening volume, press the volume down (–) button.

To adjust the listen or speak volume of the Microsoft Office Communicator, please refer to the softphone user documentation. It is recommended that the volume is adjusted on the inline control and not the Windows volume control.

To adjust the speak volume of the audio device on the computer, use the Sound and Audio Device section on the Control Panel.

**Muting a Call**

To mute the microphone during a call, briefly press the mute button. When muted, the Mute LED will be lit.

To unmute press the button again.

---

**Troubleshooting**

**Problem** | **Solution**
---|---
I cannot hear caller. | - The USB headset is not set as the default audio device. To change audio setup, refer to the Microsoft Office Communicator user guide.
- Listening volume is too low. Press the volume up button on the headset.

Callers cannot hear me. | - Headset is muted. Press the mute button on headset to unmute the microphone.
- Headset microphone boom aligned incorrectly. Align the headset boom with your mouth.
- The USB headset is not set as the default Voice device. Use the Voice settings in Windows under Sounds and Audio Devices to select “Blackwire C210-M/C220-M” as the voice device.

Sound in headset is distorted. | - Lower the listen volume on your softphone until the distortion disappears.
- Adjust volume on headset.

I can hear echo in headset. | - The USB headset is not set as the default audio device in Windows. Use the Audio settings in Windows under Sounds and Audio Devices to change the device used for audio.

The other headset I was using to listen to music does not work any more. | - The USB headset will set itself as the default audio device in Windows. Use the Audio settings in Windows under Sounds and Audio Devices to change the device used for audio.

My headset stops responding to button presses. | - When a PC goes into standby or hibernation, the USB headset no longer is powered on. Be sure your PC is in an active state.
