Before using your headset for the first time, you must pair it with another Bluetooth device, such as a mobile phone. Follow the steps beginning on the next page for most devices. You can also refer to your telephone user guide or visit www.plantronics.com

1. Turn on both devices.
2. Place the headset in pairing mode by simultaneously pressing and holding the Call Control Button and the Listen Volume Adjust Button marked + (volume up). Release the buttons when the Status Indicator begins to flash red then blue.

Use your phone's menu to search for Bluetooth audio devices and select "510 by Plantronics" when it appears on the display.

Note: In some circumstances the pairing process can take up to 2 minutes to complete

When asked for a passkey, enter: 0000, then check the phone display. The Status Indicator flashes blue, once the headset is successfully paired.
