

ALL TOGETHER

HOW YOUR TECH SETUP IMPACTS REMOTE WORK

With

84%

of current remote workers preferring to work from home,¹ remote work will remain as common as having a smartphone – so the technology in your remote workspace is an important success factor.

REMOTE WORK CAN INCREASE PRODUCTIVITY...

There's a reason 74% of organizations plan to permanently move employees to remote work.²

Work-from-home employees spend less time avoiding work.³

77%

of those who work remotely a few times per month are more productive.³

97% of remote workers want to stay remote.⁴

39%

of adults would consider quitting if their employer was inflexible about remote work.⁵

...BUT SUBPAR TECH CAN STOP YOUR MOMENTUM

Since going remote:

56%

of IT professionals are dealing with a high increase in video conferencing tickets.⁶

62%

of workers feel they've missed out on opportunities to collaborate.⁷

35%

of workers report frustration, irritation and annoyance due to audio issues.⁸

THE RIGHT TECH CAN HELP YOU LEAP OVER ANY HURDLE

With 14%

of remote workers having more than 10 meetings a week,⁹ quality technology is essential for productive communication and remote collaboration.

High-quality video calls solve one of the most common work-from-home tech concerns.¹⁰

Users can gain 30

more productive minutes per week by having strong sound quality on calls.¹¹

Improved audio can boost the emotional well-being and engagement of the listener.¹²

POLY SOLUTIONS BOLSTER REMOTE WORK SETUPS

Be heard like you're in the room with USB and Bluetooth speakerphones.
