

Polycom® ClassStation™ VSX™ Solutions

The World Is Your Interactive
Distance Learning Classroom

Benefits

Increased educational equity and content access – More students, more content, more locations, more countries, more cultures, more research with fewer resources. In compliance with “No child left behind” legislation

Transparent technology – By integrating voice, video, data and Web instructional tools the complexity and distance of distance learning is removed

Easy to use and affordable – Designed by educators for educators. You can be yourself and feel comfortable and confident with the technology. Package price has never been lower.

Expand and reach – Institutions can increase course availability and extend the curriculum, obtain more students, generate more revenue and research

Effective – No loss in student achievement. Increased instructional design. More Advanced Placement and dual enrollment classes. Can be utilized for National Educational Technology Standards S (students), T (teachers) and A (administrators)

Enriching – Eye-to-eye contact and true interactive viewing bring all student and locations together regardless of time and distance

Eliminate complexity – Reduce the costs and complexity associated with integration of various components and instructional tools. One part number for entire packages. It's a comprehensive solution

Approved – For various national and federal grant and funding programs

Delivers success – Teachers can now be successful without having to change their teaching techniques. A natural and exciting learning environment

The Polycom ClassStation solution provides integrated technologies that expand the classroom throughout the world, excite the student, empower the teacher and enhance learning with automated operations.

Empower instructors, teachers and students for success by using Polycom ClassStation solutions. Designed by a team of global educators and user groups, ClassStation solutions offer transparent technology that lets educators and students focus on learning. Ease of use guarantees remote student interaction and a comfort level never felt before by instructors. They are also complete solutions – providing educational equity and essential tools-of-the-trade for teachers.

The ClassStation VSX™ solutions are built with the Polycom VSX™ Series and VSX 8000 Series video communication system and come preconfigured in Primary, Secondary, Small and Large packages. These solutions are ideal for K-12, community colleges, vocational schools, universities, corporate training, medical education and distributed learning environments of the military. They are designed to work in different physical environments and application requirements such as incorporating computer applications, document camera, Web Server, VCR/DVD and dual-stream presentation techniques. All the solutions combine real-time voice, video and data sharing, making a powerful and exciting interactive learning session that is both intuitive and simple.

The Large ClassStation package offers everything an instructor needs. It is ideal for the large classroom, large lecture hall, auditorium or teaching center because it incorporates total integration with a touch screen panel for easy and quick control of the entire room. Incorporate high-quality monitors, educational cabinets, 14 Khz stereo speakers and the video, audio and data (course content) is at its highest quality and resolution ever. Now distance learning is fun, productive and affordable.

Polycom ClassStation solutions are the heart of interactive education, giving the student and teacher the tools and environment they need to be successful. With the greatest breadth and depth of integrated video, voice, and Web solutions, only Polycom delivers the ultimate distance learning experience. Polycom's market-leading conferencing and collaboration technologies, supported by world-class service, enable educational institutions and their students to achieve their maximum potential. Add to that the most experience and proven best-practices in the industry, and it's clear why Polycom has become the smart choice for education.
