

▶ Polycom® VoiceStation® 300

Crystal-clear conferencing for smaller rooms and desktops

The quality of Polycom designed for offices and small meeting spaces

The Polycom VoiceStation 300 is a small conference phone ideally suited for desktops, offices, and other small rooms. With a microphone range of up to seven feet, the VoiceStation 300 is ideal for small conferences with three to four participants. Plus its compact industrial design fits well on a desk or small table, making it a great solution for offices. The VoiceStation 300 provides Polycom's legendary voice quality at an affordable price.

Featuring Polycom's award-winning Acoustic Clarity Technology, the VoiceStation 300 delivers significantly improved voice quality over the previous-generation VoiceStation 100. The VoiceStation 300 features three sensitive microphones that offer 360-degree room coverage. Smart technology, such as Dynamic Noise Reduction (DNR), provides maximum microphone sensitivity, while reducing distracting room and background noise. It also features technology that resists interference from mobile phones and other wireless devices, delivering clear communications with no distractions. Plus, Polycom's legendary full-duplex technology ensures that everyone on the call can be heard.

Convenient controls for volume, mute, redial, flash and hold are located on an intuitive, easy-to-use keypad. A handset phone can be plugged in for private calls, or simply switch back to the VoiceStation 300 for hands-free conversations.

Make Great Things Happen with VoiceStation 300

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organisation's survival. As the market leader in voice, video, data and web solutions, our award winning conference technology makes it easy for people to interact and maximise productivity over any network, in just about any environment, anywhere around the globe. That's why more organisations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen. See how you, too, can achieve great things with Polycom VoiceStation 300.

- ▶ More productive calls – Polycom's patented Acoustic Clarity Technology allows simultaneous, natural, free-flowing conversation
- ▶ 360-degree room coverage – A powerful, digitally-tuned custom speaker and three sensitive microphones provide uniform coverage from up to 7 feet away
- ▶ Hands-Free Calls – A great hands-free conferencing solution for home offices and small businesses
- ▶ Resists interference from mobile phones – Clearer calls with no distracting noise from wireless devices
- ▶ Easy to use and install – Connects into any analogue phone jack
- ▶ Secondary phone options – Plug in a fax machine or computer modem, or plug in a handset for private calls
