

UNPACKING.
UNBURDENING
YOUR IT STAFF.
UNBELIEVABLY
HELPFUL.

BENEFITS

- Make installation and deployment smoother for everyone—from end users to your help desk—with our Headset Installation with Onsite Deployment Support Service
- Count on Poly experts to handle every part of installation right onsite, from unpacking and assembling to connecting and charging headsets
- Deliver headsets to end users at their desk/workstation and connect headsets to their computer or handset

HEADSET INSTALLATION WITH ONSITE DEPLOYMENT SUPPORT

Give your IT staff a break. With our Headset Installation with Onsite Deployment Support Service, you can offload repetitive installation tasks to free them up for more important work. We'll take care of everything from unpacking to assembly on the spot. Plus, after the initial installation, our support team can stay around to help ensure everything's going smoothly—from help desk support to acting as a floorwalker who can assist users and troubleshoot any issues. This promotes faster headset adoption, and also helps users get up to speed faster. Your headset users (and IT team) will thank you.

- Apply asset tags if needed
- Speed up deployment, adoption and user productivity with headsets
- Rely on a roaming floorwalker to answer employee questions and troubleshoot
- Count on a Poly expert for additional day-one deployment support
