MICROSOFT BUILD INTENT WORKSHOPS

At Poly we understand that businesses may need help from Microsoft experts with highly specialized skillsets to drive Unified Communications (UC) transformation to Microsoft Teams. Poly Build Intent Workshops for Microsoft Teams are designed towards accelerating your journey, including a rapid deployment program to address your current needs for business continuity, envision the possibilities, and efficiently realize your opportunities. These Workshops help make your users and employees more productive, efficient and secure while using Microsoft Teams, and are available to Microsoft approved Poly customers.

The **Hybrid Meetings and Rooms Workshop** is a modular engagement to identify and understand business priorities while focusing on specific scenarios that drive meetings culture transformation. This workshop engagement is designed to showcase modern meetings through “art of the possible” immersive experiences, use-case design, and deep-dive planning, resulting with actionable recommendations to deploy and adopt Microsoft Teams Meetings and Meeting Rooms.

The **Modernize Communications Workshop** helps customers experience the vision for Microsoft Teams Calling with Phone System capabilities and advanced communication scenarios through a virtual workshop. It is designed to guide you through the process of a simplified enterprise voice solution with reliable, high-quality, integrated calling. Through “art of the possible” immersive experiences, use-cases, and deep-dive planning, you will gain actionable recommendations to deploy and adopt Microsoft Teams Calling with Phone system.

The **Endpoint Management Workshop** will show you how to leverage intelligent security, risk-based controls, zero-touch provisioning, advanced analytics, and deep integration to the Microsoft products you already use. Gain an executive deep dive into remote deployment, management, and the security of corporate and BYOD devices in your organization. Our goal is to show you the best ways to manage endpoints at the enterprise level. We’ll provide you with information on best practices for your Microsoft endpoint management.

The **Microsoft Viva Workshop** lets you discover how Microsoft Viva, an integrated platform built on top of Microsoft Teams, will help your people to be their best, to thrive in the new reality of a more flexible work world. Learn how Microsoft Viva helps organizations deliver personalized experiences to their employees with news, tasks, and conversations, provide data-driven insights and recommendations, organize content and expertise, and deliver formal and informal learning when and where it is needed.
