

POLY PROFESSIONAL SERVICES EXCLUSIVE DISCOUNTS

Your business is unique – our Professional Services teams can help ensure everyone in your organization gains the most out of collaboration solutions. With all the expertise that comes from planning, deploying and optimizing these solutions around the world, we can help you reduce risk, tailor solutions, speed deployment and more. Let's work together to achieve your business goals.

Customers with a current Poly+, Poly+ Enterprise, or Elite support contract are eligible for discounts on the following Professional Services:

CONSULTING DAY RATE

We can provide you with the experience and knowledge of Poly consultants to solve specific business problems that you are facing today or as you strategically plan for your future. Examples of recent consulting engagements include: helping organizations plan for a hybrid workforce; create Return to Office strategies; assist enterprises as they plan their transition to cloud; create a blueprint to achieve meeting equality for a distributed workforce and ensure high meeting quality with maximum participation and collaboration from all attendees.

HEADSET WIRELESS DENSITY STUDY

An abundance of DECT™ and Bluetooth® wireless headsets used in one shared space can create call interference, so don't defeat the purpose of this productivity-boosting tech. Our team of wireless density experts start with a remote survey of your space and headset needs. We'll spot any problems, offer actionable solutions and walk you through how to optimize headset performance in every space.

HEADSET COMFORT AND CLEANLINESS

Your end users need clean, well-maintained, and high functioning equipment to get the job done. Poly offers a Headset Comfort and Cleanliness service to keep your headsets in top condition – not only for health and safety, but also to ensure you're getting the most out of your investment. Our technicians will examine, clean, test and recondition headsets either on-site at your location, or, ship your used headsets to Poly and we will ship them back.

NEW TO POLY LENS? NEED SOME ONBOARDING HELP?

Let Poly experts assist you in setting up your own Poly Lens tenant and onboard Poly collaboration devices. Once added to inventory, you can begin to manage, monitor, troubleshoot, and visualize adoption and usage trends that benefit your organization.

REMOTE TWO-DAY SOLUTION DESIGN FOR VIDEO ENDPOINTS: SAVE RESOURCES, TIME AND MONEY

Upfront planning and design are an investment that ensures that it's the right solution for the environment the first time. Our experienced team will work with you to understand your business requirements and goals. We recognize the technical interdependencies and have tested use cases saving time, resources and money in the long run.

REMOTE INSTALLATION OF VIDEO ENDPOINTS: ENSURE OPTIMUM DEPLOYMENT FOR YOUR BUSINESS NEEDS

Deploy solutions quickly and accurately while minimizing disruption to your existing production environment. We will work with you to remotely deploy specific solutions in a straightforward and seamless fashion. Reduced implementation time enables a faster operational start.

A sales order number must be quoted on the purchase order to confirm an active Poly+, Poly+ Enterprise or Elite support contract is in place.

Contact your local reseller for discounts available.
