THE BOTTOM LINE

- If you have in-house technical collaboration experts, you're happy with telephone support during normal business hours and next-day parts delivery, Premier gives you all the support you need.
- BUT** if you have limited in-house technical staff, and/or want priority access to 24x7 telephone technical support, choose Advantage.
- AND** if you want a higher level of response and resolution to service requests, and/or a closer business or technical relationship with Poly, add one or more additional support modules.
- ALSO** think about multi-year and/or co-term arrangements that help you reduce costs and increase ROI. If you need to change or amend your Poly service, they're future-proofed so you won't lose out. And if you have a really complex environment, think about Elite.
