Current Schedule

This schedule includes Poly public instructor led training courses. Participants can attend over video when available, and in person at a Poly Learning Center; this information is included in the “scheduled class location” column. Some training, including DDOMVEOT201, cannot be delivered over video. We suggest that unless the learner is very skilled that their first class be in person, where the instructor will also be more readily available.

Orders are made through your Poly Partner. Please allow enough time to schedule your Purchase order. Course schedules are subject to change without notice and courses can be cancelled if there are not enough attendees. For the most current schedule use the calendar link in the “Accessing Poly University” section above. Courses that are currently not scheduled can also be accommodated depending on demand (number of participants) and trainer availability. To find out more about a class please email polyuniversity@poly.com.
