Resolved Issues

The following table lists the resolved issue in this release.

Resolved Issues

<i>Category</i>	<i>Issue ID</i>	<i>Found in Release</i>	<i>Description</i>
Upgrade	EN-187901	1.6	Polycom Companion fails to upgrade the EagleEye Mini USB device due to an expired certificate.

Known Issues

This section identifies the known issues in this release.

IMPORTANT: These release notes do not provide a complete listing of all known issues for the software. Issues not expected to significantly impact customers with standard voice and video conferencing environments may not be included. In addition, the information in these release notes is provided as-is at the time of release and is subject to change without notice.

Known Issues

<i>Category</i>	<i>Issue ID</i>	<i>Found in Release</i>	<i>Description</i>	<i>Workaround</i>
Installation	EN-117731	1.1	You can't install the application by clicking Run after downloading <code>PolycomCompanionSetup.exe</code> from a Microsoft Edge browser.	Select Save or Save as to save the installation package to your local disk, then install it from Windows File Explorer.
Settings	EN-165360	1.4	(Polycom Companion for Mac only) You can't change the Enable Stereo Audio setting.	Change the setting using Polycom Companion for Windows.

System Constraints and Limitations

This section identifies the limitations and constraints when using this product.

Polycom Companion for Mac Compatibility with Microsoft Skype for Business

Polycom Companion for Mac doesn't work when Microsoft Skype for Business is running. Exit Skype for Business before using Polycom Companion.

Installation

Issue ID EN-141613. The anti-virus software Avast may prevent the Polycom Companion App from installing until the Companion App passes its sanity check. This check may take hours.

Caution: Don't unplug the USB cable or power cable for the Poly Studio USB video bar or Poly EagleEye Cube USB camera while changing settings on Polycom Companion. This may cause unexpected errors.
