What's New

Note: Poly Studio E70 1.5.0 is delivered as part of Poly VideoOS 3.12.0. For more information on Poly Studio E70 features, compatibility, known issues, and resolved issues see the *Poly VideoOS 3.12.0 Release Notes* on the [Poly Online Support Center](#).

Introducing People Framing (Preview Only)

When you enable people framing, the camera identifies individuals in a conference and provides personally framed views for six or fewer participants. If the camera detects more than six people, the camera places all participants in a single frame.

People framing is a preview feature. Preview features are fully tested and supported features that Poly continues to develop in alignment with customer feedback.

To provide feedback, use one of the following options:

- In Poly Lens Desktop (v 1.1.18 or later), select **Feedback**.
- Go to the [Poly Lens Feedback Portal](#) (for Poly Studio E70 only), and fill out the questionnaire.

Select People Framing

Select People Framing mode to track and frame meeting participants in up to six individual frames.

1. Log in to the system web interface.
2. Go to **Audio / Video > Video Inputs > Poly Studio E70**.
3. From the **Tracking Mode** dropdown menu, select **People Framing**.

Release History

Release History

Release	Release Date	Description
1.5.0	June 2022	Added People Framing (Preview Only)
1.4.0	April 2022	Maintenance release
1.3.0	March 2022	Maintenance release

1.0.2	August 2021	Initial release of Poly Studio E70 USB camera

Security Updates

Please see the [Security Center](#) for information about known and resolved security vulnerabilities.

Security Policy

Poly implements a layered defense-in-depth approach to protect information in products and systems from unauthorized processing. For more information, see the [Poly Security and Privacy Overview](#).

Products Tested with this Release

Poly products are tested extensively with a wide range of products. The table below lists the products that have been tested for compatibility with this release.

Poly strives to support any system that is standards-compliant, and Poly investigates reports of Poly systems that do not interoperate with other standards-compliant vendor systems.

Poly recommends that you upgrade all of your Polycom/Poly systems with the latest software versions. Any compatibility issues may already have been addressed by software updates. See [Poly Service Policies](#) for the Current Polycom Intraoperability Matrix.

Note that the following list is not a complete inventory of compatible equipment, but the products that have been tested with this release.

Products Tested with this Release

Product	Tested Versions
Poly G7500	Poly VideoOS 3.12.0
Poly Studio X50	Poly VideoOS 3.12.0
Poly G10-T	1.2.1
Poly Studio Large Room Kit for Microsoft Teams Rooms	1.0.0
Zoom Rooms	5.7.5

Resolved Issues

This section identifies the issues resolved in this release.

Resolved Issues

Category	Issue ID	Description
Camera	EN-225681	On a Windows-based Microsoft Teams Rooms system, the Studio E70 camera stops tracking after a camera reboot.

<i>Category</i>	<i>Issue ID</i>	<i>Description</i>
Device Management	EN-225663	On a Studio E70 connected to a Windows PC, initiating Restore Defaults from Lens Desktop results in the camera no longer being recognized by the computer.

Known Issues

There are no known issues in this release.

System Constraints and Limitations

This section provides information on constraints and limitations when using the Poly Studio E70 camera.

Camera Framing When Using Zoom Rooms

When using the Poly Studio E70 with a Mac- or Windows-based Zoom Room setup, the camera only supports Autoframing and manual pan, tilt, and zoom controls. The Studio E70 doesn't support speaker framing with this setup.

Frame Speaker Mode

Based on customer feedback, Poly will improve the performance of Frame Speaker mode in a forthcoming release. If you experience undesired behavior when Tracking Mode is set to Frame Speaker, Poly advises setting Tracking Mode to Frame Group.

Supported Peripherals and Applications

The following tables include the Poly and partner peripherals and applications supported with the Poly Studio E70 camera.

Applications

<i>Application</i>
Mac and Windows-based Zoom Rooms
Windows-based Microsoft Teams Rooms
Poly Lens Desktop

USB Extenders for Microsoft Teams Rooms on Windows

<i>USB Extender</i>
Sound Control Technologies RemoteCamUSB2 Platform

USB Extender

Icron USB 3-2-1 Raven 3104 Pro

USB Cables

Type	Length	Part Number
USB 3.1 USB-A to USB-C	10 m (32.8 ft)	2457-30757-001
USB 3.1 USB-A to USB-C	25 m (82 ft)	2457-30757-025
USB 3.1 USB-A to USB-C	40 m (131.2 ft)	2457-30757-040
