## Introducing Poly Studio P5

The Poly Studio P5 webcam ensures you look your best on video calls at home, in the office, or wherever you're working. Exceptional camera optics are fine-tuned so you always come across clearly with a professional-quality image. Brilliant colors and automatic low light compensation deliver excellent video quality no matter where you need to take a call. The directional microphone focuses on your voice and not the noise around you. An integrated privacy shutter keeps you in control of when you are on camera for enhanced security and privacy.

Poly Lens provides robust IT tools to manage and track your Poly Studio P5 devices from anywhere.

# Update the Firmware Before You Begin

When using the Poly Studio P5 webcam with a supported operating system on a Windows or Mac computer, you must update the device to the latest firmware using the Poly Lens Desktop App. Download the Poly Lens Desktop App at [poly.com/lens](https://poly.com/lens).

Microsoft Windows users can also update the Poly Studio P5 firmware through Windows Update.

## Resolved Issues

This is the first release of the software. No resolved issues are included.

## Known Issues

There are no known issues in this release.

---

**IMPORTANT:** These release notes don't provide a complete listing of all known issues for the software. Issues not expected to significantly impact customers with standard voice and video conferencing environments may not be included. In addition, the information in these release notes is provided as-is at the time of release and is subject to change without notice.
