What's New

This release includes all the features and important fixes from earlier 7.3.x releases as well as:

- Microsoft Teams version update
- Improved Web Proxy logging is now available within the System Log files exported from the CCX web UI
- Zoom Base Profile is now accessible from menus and the web ui on the CCX 400 and CCX 500

Poly frequently provides software updates with new features and recommends that you regularly update the software on your Poly CCX business media phones for the best performance and experience.

Poly CCX Supported Base Profiles

The following table lists the base profiles supported on each CCX phone model for this release. This applies to both OpenSIP and Teams models.

Base Profiles Supported on CCX Business Media Phones in This Release

Phone Model	Generic	Microsoft Teams	Zoom Phone	8x8 Work	Skype for Business
CCX 400	Available	Available ³	Available	Not available	Not available ⁴
CCX 500	Available	Available ³	Available	Not available	Not available ⁴
CCX 505	Available	Available	Not Available	Not Available	Not Available
CCX 600	Available	Available ³	Available	Available	Not available ⁴
CCX 700	Available	Available ¹	Available	Available	Not available ⁴

¹ Although the Teams profile is available on the CCX 700 it is not supported by Microsoft.

³ Poly UC Software includes the Microsoft Teams base profile in every release; however, Microsoft Support of a particular release may vary depending on the UC Software version currently in use by Microsoft via the Teams Admin Center.

⁴ Support for Skype for Business has been deprecated in Version 7.3.0 and later. The Skype for Business base profile has been removed from menus, etc.; however phones already in Skype for Business profile which are upgraded will remain in Skype for Business base profile for unsupported usage.

Microsoft Teams Components

The following table lists the component versions for the embedded Teams application on CCX 400, CCX 500, CCX 505, and CCX 600 business media phones.

For more information on this Teams version, see [What's new in Microsoft Teams](#).

Microsoft Component Versions for CCX Phones

Microsoft Component	Version
Microsoft Teams	1449/1.0.94.2022062103
Microsoft Admin Agent	1.0.0.202205230848.product (v361)
Microsoft Intune Company Portal	5.0.5484.0

Release History

The following table lists the release history of Poly CCX business media phones.

Release History

Release	Release Date	Features
7.3.2	August 2022	Maintenance release.
7.3.1	July 2022	Maintenance release.
7.3.0	May 2022	Content release that includes the following features: <ul style="list-style-type: none">• Web Proxy Auto Discovery Enabled by Default• RingCentral Feature Support• Zoom Feature Support• Microsoft Teams Update

Security Updates

Refer to the [Poly Security Center](#) for information about known and resolved security vulnerabilities.

Resolved Issues

Note: Starting with UCS 7.2.0, issue IDs have the format VOICE-XXXXX. If you're tracking an issue with an ID in the old format (EN-XXXXXX), you can continue to use this number to reference your issue when working with Poly Support.

The following table lists resolved issues in this release for CCX business media phones.

Note: These release notes don't provide a complete listing of all resolved issues that are included in the software. User experience updates, performance fixes, and enhancements may not be included. In addition, the information in these release notes is provided as-is at the time of release and is subject to change without notice.

Resolved Issues

Category	Issue ID	Description
Certificates	VOICE-71812	Certificate failed to generate after being downloaded successfully.
Configuration	VOICE-71701	On platforms that support Bluetooth, the Bluetooth item in the Teams Device Settings menus would not be removed when phone configuration <code>feature.bluetooth.enabled="0"</code> was applied.
Login	VOICE-71737	CCX 505 is unable to log on to Teams when using a web proxy.
Networking	VOICE-71518	The DNS server can't resolve public addresses. This causes PHS updates not to work and Teams can't connect to the Company Portal and log in to Teams.
Networking	VOICE-71209	Failure to parse SCEP requests that use indefinite-length BER encoding in their PKCS#7 payloads. Affects CCX 500, 505, 600 and 700 and Trio C60.
Networking	VOICE-22414	Setting the WiFi country of operation is not applied until the phone is manually rebooted
Networking	VOICE-71538	Web Proxy when operating in Teams base profile does not work without a username/password

Known Issues

Note: Starting with UCS 7.2.0, issue IDs have the format VOICE-XXXXX. If you're tracking an issue with an ID in the old format (EN-XXXXXX), you can continue to use this number to reference your issue when working with Poly Support.

The following table lists the known issues and suggested workarounds for this release and previous releases.

Note: These release notes don't provide a complete listing of all known issues that are included in the software. Issues not expected to significantly impact customers with standard voice and video conferencing environments may not be included. In addition, the information in these release notes is provided as-is at the time of release and is subject to change without notice.

Known Issues

Category	Issue ID	Description	Workaround
Diagnostics	VOICE-69503	The trace route diagnostic tool accessed from the Settings > Diagnostics > Network menu , does not return any results	No workaround.
Hardware	VOICE-71805	CCX 505 operating in the Generic Base Profile may on rare occasion turn off the red mute LED while actually remaining muted if the user is in a call, presses mute and then the far end caller puts the call on hold and resumes.	Press the mute key to disable mute and regain audio transmit or the far end caller can hold and resume the call which will trigger the red mute LED to resynchronize with mute state.

System Constraints and Limitations

This section identifies the constraints and limitations when using this product.

Windows 11 Support

Poly doesn't fully support use of this product with Windows 11 computers at this time.

Products Tested with This Release

Poly tests CCX business media phones with other products. The following list indicates only the products tested for compatibility with this release and isn't a complete inventory of compatible equipment.

Update all your Poly devices with the latest software before contacting Poly support to ensure the issue has not already been addressed by software updates. To view the latest software for your product, see the [Current Intraoperability Matrix](#) at Poly Support.

Products Tested with This Release

Product	Tested Versions
Poly Clariti Core	10.1.0
Poly Clariti Edge	10.1.0
Polycom RealPresence Collaboration Server	8.9.2

Product	Tested Versions
Polycom RealPresence Group Series	6.2.2.7
Poly G7500	3.7
Poly Studio X30	3.7
Poly Studio X50	3.7
Poly Trio Series	7.2.0
Cisco Unified Communications Manager	12.5.1
Cisco Expressway Core	12.6.2
Cisco Expressway Edge	12.6.2
