

Poly Voice Software 8.0.0

If you have a Poly Edge E Series product with Poly Voice Software (PVOS) that contains software from the open-source-community, this must be licensed under the specific license terms applicable to the software.

For at least 3 years from the date of distribution of the applicable product or software, we can provide one of the following on request:

- A copy of the complete corresponding machine-readable source code for programs listed in this document.
- A copy of the corresponding machine-readable source code for the libraries listed in this document, and the executable object code of the Poly work with which the library is used.

The software included or distributed for Poly Voice products with PVOS, including any software that may be downloaded electronically through the internet or otherwise is licensed, not sold.

Source Code Request

Poly Voice products with PVOS use several open-source software packages. The packages containing the source code and licenses for all of the open-source software are available upon request by contacting open.source@poly.com.

License Information

The following table contains license information for the open-source software packages used in the **Poly Edge E** models: 100/220/300/320/350/400/450/500/550.

Software	Version	License	Link
ACL	2.2.52-r0	LGPL 2.1
