## What’s New

This release includes all the features and important fixes from earlier 7.2.x releases plus bug fixes.

## Version History

This following table shows the release history of the Poly Trio solution.

Release	Release Date	Features
7.2.5	March 2023	Maintenance release for Poly Trio systems.
7.2.4	December 2022	Maintenance release for Poly Trio systems. Includes the following feature: <ul style="list-style-type: none"><li>• Subnet information is now available for use in E911 location identification.</li></ul>
7.2.3	July 2022	Maintenance release for Poly Trio systems. Includes the following features: <ul style="list-style-type: none"><li>• Subnet information is now available for use in E911 location identification.</li></ul>
7.2.2	March 2022	Maintenance release for Poly Trio systems. Includes the following features: <ul style="list-style-type: none"><li>• Add a Mandatory Message Confirmation for Outbound Calls</li><li>• Support for Zoom Rooms Controller version 5.9.3 (1069)</li></ul>
7.2.0	November 2021	OpenSIP-only release. Includes the following features: <ul style="list-style-type: none"><li>• Zoom Room Controls</li><li>• Basic Authentication for Web Proxy</li><li>• Set Up a Custom Background on Poly Trio Systems</li><li>• STIR/SHAKEN Call Validation</li><li>• Media Security Negotiation</li><li>• Turn Off Trio Mics When Using Visual Pro</li></ul>

## Security Updates

Refer to the [Poly Security Center](#) for information about known and resolved security vulnerabilities.

---

**Note:** Poly supports SIP telephony feature interoperability with Avaya Aura Communication Manager and Avaya Aura Session Manager following published standards, including IETF Requests for Comments (RFCs) and internet drafts last validated by Avaya in March 2019 contingent on Avaya allowing SIP-compliant third-party endpoints to register and interoperate with its call platforms.

---

## Microsoft Support

Poly support for Microsoft features varies by product.

Trio 8800 Collaboration Kits, Trio 8500 Collaboration Kits, the Trio VisualPro accessory, and the Trio Visual+ accessory are not supported or qualified by Microsoft. As determined by Microsoft and Poly, the only supported way to connect Trio 8800 Collaboration Kits, Trio 8500 Collaboration Kits, Trio Visual+ accessories, or Trio VisualPro systems with Microsoft Teams or Skype for Business is through Poly RealConnect.

---

**Note:** When you set a Trio system's base profile to MS Teams, Microsoft controls the software experience and performance on the Trio system.

---

## Microsoft Teams Components

The following tables list the Teams component versions included in this release. For more information on this Teams version, see [What's new in Microsoft Teams](#).

---

**Important:** Poly only supports OpenSIP deployments for this release.

---

### Microsoft Teams Component Versions in Trio 8500 and Trio 8800

Microsoft Component	Version
Microsoft Teams App	1449/1.0.94.202005601
Microsoft Admin Agent	1.0.0.202006290446.product (216)
Microsoft Intune Company Portal	5.0.4801.0

---

## Zoom Rooms Controller

Trio 8500 and 8800 systems, when optimized for Zoom Rooms, act as a controller for Zoom Rooms via the system's touch user interface and provide audio for Zoom Room meetings through the built-in speakers and microphones.

This software release runs Zoom Rooms Controller software **5.11.0 (1386)** as embedded software. For more information on this Zoom release, see the [Zoom Help Center](#).

For the latest setup instructions, see the *Integrating Poly Trio Systems with Zoom Rooms Solution Guide* at [Poly Support](#).

## Resolved Issues

The following table lists resolved issues in this release for Poly Trio systems.

**Note:** These release notes do not provide a complete listing of all resolved issues that are included in the software. User experience updates, performance fixes, and enhancements may not be included. In addition, the information in these release notes is provided as-is at the time of release and is subject to change without notice.

### Resolved Issues

Category	Issue ID	Description
Certificate Management	VOICE-73829	Phones fail to process certificates provided by SCEP systems such as Sectigo SCM, Cisco ISE, Microsoft NDES or EJBCA
Hardware	VOICE-74396	if a Trio8300 was calling someone who is using a Desktop Phone The audio was tinny and sharp when a Trio called a desktop phone.
Hardware	VOICE-71893	Trio 8800 loses speed dial functionality from the contact list when daisy chained.
Interoperability	VOICE-74056	Lens frequently reports the phone as offline when it is powered on and otherwise working as expected.
Networking	VOICE-74291	Phones with MAC address OUI 48:25:67 incorrectly calculate their PCS/ObiNumber which may cause PDMS-SP service interruption
User Interface	VOICE-74483	Web System Interface was not loading properly in the Microsoft Edge Browser.
User Interface	VOICE-73588	The Traceroute utility from the web interface does not reliably return results
User Interface	VOICE-72095	Contact photo retrieval fails due to Exchange Online services ending support for basic authentication

## Known Issues

The following table lists known issues and suggested workarounds included in this release for Poly Trio systems.

**Note:** These release notes do not provide a complete listing of all known issues that are included in the software. Issues not expected to significantly impact customers with standard voice and video conferencing environments may not be included. In addition, the information in these release notes is provided as-is at the time of release and is subject to change without notice. +

### Known Issues

There are no known issues in this release.

## System Constraints and Limitations

This section identifies the constraints and limitations when using this product.

### *Windows 11 Support*

Poly doesn't fully support use of this product with Windows 11 computers at this time.
