

CONFERENCE WITH CONFIDENCE

BENEFITS

- Let everyone's voice be heard with capacity for thousands of concurrent calls
- Give your end users the freedom to join from their personal device of choice
- Lower your operating costs while increasing your employees' collaborative output with an improved 6X the call capacity over our legacy solutions
- Schedule a call or enter a meeting with just one click
- Configure your large organization's comms with private cloud, end-to-end video conferencing with an easy install wizard

POLY CLARITI

Get ready for mind-blowing private video collaboration. Poly Clariti software lets your teams connect easily from anywhere with quality to die for and unmatched unbelievable quality and scalability. Deploying video infrastructure on-premises, in the cloud or hybrid mode? It's all good: Poly Clariti's broad-reaching interoperability ensures that people can connect wherever, whenever, on any device. Organizations will gain full access and control of their end-to-end video conferencing platform, allowing for thousands of participants and ensuring equal meetings for all.

- Optimized, customizable network configuration for call routing
- Always-on and geo-redundant software for maximum reliability
- Protects calls and data with embedded encryption
- Endless reach and maximum VaaS (Video-as-a-Service) interoperability
