

# UPGRADE YOUR MEETING ROOMS FOR BETTER VIDEO COLLABORATION

Modern-day meetings account for both employees in the room and those joining remotely. Room video solutions let them collaborate like they're at the same table.

## KEEP EVERYONE VISUALLY ENGAGED

Poly's AI-powered smart cameras let everyone see what's going on in the meeting. People in the room and those joining remotely are framed equally well. Smart cameras can automatically focus on the speaker and follow them as they move around the room to demonstrate or write on a white board.

## MAKE IT EASY TO JOIN THE CONVERSATION

Poly's high-quality audio lets everyone hear, keep track of, and jump into the discussion. NoiseBlockAI minimizes non-human background noise, while Acoustic Fence technology keeps competing sounds from entering the microphone. Microphones that are appropriately sized for the room capture every word and ensure that speakers are heard.

## GET A QUICK START

Powerful and professional doesn't have to mean difficult to use. Video bars with built-in audio means rooms are set up in a snap. Seamless integration with leading UC platforms simplifies use, while touch controllers take the delay out of starting a call.

## THINK OUTSIDE THE CONFERENCE ROOM

In hybrid environments, the definition of meeting spaces has expanded beyond traditional conference rooms. Anywhere people come together – huddle rooms, focus rooms, casual gathering spaces – needs to be equipped so remote workers can join the discussion.

## ENABLE REMOTE MANAGEMENT

Empower your IT teams to easily monitor and maintain the video conferencing solutions across your organization. Remote management simplifies both user support and the routine task of ensuring every video device is up and running when it's needed.

## BETTER HYBRID MEETINGS START WITH POLY VIDEO SOLUTIONS

### POLY STUDIO R30

#### USB video bar for small rooms

- Poly DirectorAI smart camera automates group framing and speaker tracking.
- NoiseBlockAI and Acoustic Fence technologies eliminate noise distractions.
- Plug-and-play ease makes every minute counts.

### POLY STUDIO X30

#### All-in-one video bar for huddle and small rooms

- Cinema-quality camera framing keeps the speaker in focus.
- NoiseBlockAI technology blocks audio distractions.
- Compact design simplifies setup.
