SUPERCHARGE YOUR VIDEO CALLS

BENEFITS

• Be confident you’re always lit properly with built-in adjustable, dynamic ambient lighting that illuminates you during video calls.
• Keep your workspace clean and clutter-free with a simple all-in-one USB-connected design.
• Works with any video app on your PC or Mac.
• Enhance security and privacy by ensuring you are in control of your video with the integrated privacy shutter.
• Stay in control of settings and updates with the Poly Lens Desktop app.
• Poly Lens cloud management gives IT powerful tools to manage and track devices from anywhere.

POLY STUDIO P21

The Poly Studio P21 personal meeting display makes it simple to set up a premium video conferencing experience in your personal workspace. One device delivers the complete collaboration experience, including display, camera, microphone and speakers, with a single USB connection to your PC or Mac so it can be used with any video app. Exceptional camera optics complement dynamic, adjustable built-in lighting so you are confident you look your best. The enterprise-grade display delivers exceptional brightness and vibrant colors, while legendary Poly audio ensures you can hear and be heard clearly. For IT, Poly Lens cloud management provides robust tools to manage and track devices from anywhere.

• High performance enterprise-grade display.
• Doubles as a display for your PC or Mac.
• Exceptional camera optics – 1080p resolution with 4x digital zoom.
• Integrated stereo speakers and microphone.
• Easy-to-connect USB device.
