With Poly Studio Room kits for Microsoft Teams Rooms, the only thing that won’t come through crisp and clear are outside distractions. Whether you’re on a one-on-one video call in a focus room or presenting from a large conference room, these intuitive meeting solutions deliver premier audio quality with Poly NoiseBlockAI and Acoustic Fence technology, and immersive video from 4k high-res, smart camera technology with Poly DirectorAI. Complete with production-level framing and speaker tracking that places every face in the room front and center, you have technology that helps the whole team be seen and heard clearly—no matter where they work.

Certified and purpose built for Microsoft Teams Rooms, these cutting-edge meeting solutions fit perfectly into office workflows with simple IT setup. Attendees in the room get a consistent user experience so they can focus more on collaborating, and less on contacting the Help Desk. With the high-performance HP Mini Conferencing PC with Windows IoT and 12th Gen Intel® Core™ i7 processor, and security features at the BIOS level that help keep meetings secure, these simple, seamless room kits were purposefully designed to help your business with its business.

ACCESSORIES

BYOD KIT SOLUTION FOR POLY STUDIO ROOM KIT AND POLY PC-BASED SOLUTION*

The BYOD solution for Poly Studio Room Kits adds the ability to bring your own device (BYOD) to meetings, connecting your laptop with a single USB cable to use any video app with the Poly audio and video solutions in the room. The BYOD kit consists of Icron USB 2.0 Ranger 2311 and Acroname USBHub3+.

Acroname USBHub3+ is an 8-port USB 3.2 Gen1 (5Gbps) hub, with automatic selection for either of 2 upstream-facing host port connections. When it is used with Poly Studio Room Kit for PC-based solution, it enables BYOD connectivity by auto-switching attached USB device connections from the conferencing PC host to a laptop, upon the detection of USB connection to the laptop host.

Icron USB 2.0 Ranger 2311: See USB Extender section for details.

USB EXTENDER FOR POLY GC8*

Icron USB 2.0 Ranger 2311 USB Extender extends the distance of USB connection between Poly GC8 touch controller and the conferencing PC through the use of Category 5E or 6 cable between local and remote extender, up to 100 m/330 ft.

Acroname USBHub3+ Specifications
- Supports USB hosts and devices up to USB 3.2 Gen1 (5Gbps), backward compatible with USB 1, USB2

PC Technical Specifications Footnotes
1 Microsoft Teams Rooms Basic software is preinstalled, license activation required and includes core meeting experiences for up to 25 devices. A Pro license is sold separately and includes all Basic features plus the enhanced in-room meeting experiences, security and the Microsoft Teams Rooms Managed Services platform.
2 Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com.
3 Intel vPro® on this product requires a vPro supported processor, vPro enabled chipset, vPro enabled wired LAN and/or Wi-Fi 6E WLAN and TPM 2.0. Some functionality requires additional 3rd party software in order to run. Features of vPro® Essentials and Enterprise vary. See http://intel.com/vpro.
4 Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.
5 Intel® Turbo Boost technology requires a PC with a processor with Intel Turbo Boost capability. Intel Turbo Boost performance varies depending on hardware, software and overall system configuration. See http://www.intel.com/technology/turboboost for more information.
6 For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows) of disk is reserved for system recovery software.
7 The HP Mini Conferencing PC with Microsoft Teams Rooms does not operate under 6GHz band. The products are compatible with 6GHz and other routers, sold separately, and will operate in 2.4GHz and 5GHz bands. The actual throughput depends on network condition and router configuration. 6GHz band support requires Windows 11 IoT.
