

POLY UC HEADSET PORTFOLIO FOR ZOOM®

Poly's audio innovations make Zoom communications feel natural and work effortlessly. Our wide range of enterprise-grade headsets are compatible with Zoom and are incredibly easy to use. Make your next Zoom Meeting or Zoom Phone call a great one with Poly headsets.

SPECIFICATIONS	 Voyager 8200 UC	 Voyager Focus UC	 Voyager 6200 UC	 Voyager 5200 Office and UC Series	 Voyager 4200 Office and UC Series
CONNECTS TO	PC + smartphone/tablet	PC + smartphone /tablet	PC + smartphone/tablet	UC: PC and smartphone/tablet Office one-way: Desk phone + smartphone/tablet Office two-way: desk phone + PC + smartphone/tablet	UC: PC and smartphone/tablet Office one-way: Desk phone + smartphone/tablet Office two-way: desk phone + PC + smartphone/tablet
RECOMMENDED FOR	Professionals working in a distracting environment at home or in the office	Professionals on calls all day in noisy home or office environments	Professionals who want flexibility to be ready to take a call and easily remove earbuds when collaborating face-to-face	Mobile professionals who want to make and take calls hands free without noise disruption in and out of the office	Office professionals who prefer the freedom of hands free calls all day
WEARING STYLE	Over-the-head (stereo)	Over-the-head (stereo)	Neckband	Over-the-ear	Over-the-head (monaural or stereo)
ROAMING RANGE¹	Up to 98 ft/30 m	Up to 98 ft/30 m	Up to 98 ft/30 m	UC: Up to 98 ft/30 m; Office: Up to 250 ft/75 m (Line of Sight)	UC: Up to 98 ft/30 m; Office: Up to 300 ft/91 m (Line of Sight)
WIRELESS FREQUENCY	Bluetooth® v 5.0	Bluetooth v 4.0	Bluetooth v 5.0	Bluetooth v5.0	Bluetooth v5.0
AUDIO PERFORMANCE	Dual-mode active noise canceling (ANC), mobile wideband compatibility, A2DP, AVRCP, DSP, HFP, HSP	Active noise canceling (ANC), immersive audio, wideband (voice), hi-fi stereo, A2DP, AVRCP, DSP, HFP, HSP	Active noise canceling (ANC), A2DP, DSP	PC and mobile (HFP 1.6) wideband, echo cancellation, A2DP, DSP	Wideband (voice), hi-fi stereo (Voyager 4220), A2DP, AVRCP, DSP, HFP, HSP
HEARING PROTECTION	SoundGuard DIGITAL, G616, TWA	SoundGuard DIGITAL, G616, TWA	SoundGuard DIGITAL, G616, TWA	SoundGuard	SoundGuard DIGITAL, G616, TWA
MICROPHONE NOISE REDUCTION	Boomless four-mic performance for dynamic noise reduction	Three mics offer dynamic noise reduction	Four boomless omnidirectional mics for dynamic noise reduction	Four omni-directional mics with WindSmart technology	Two mics: one unidirectional, one MEMS-directional
CALL CONTROL	Call answer/ignore/end, mute, volume +/-	Call answer/ignore/end, mute, volume +/-	Call answer/end, mute, volume +/-	Call answer/ignore/end, mute, volume +/-	Call answer/ignore/end, mute, volume +/-
TALK TIME²	Up to 20 hours talk time; 24 hours listen time	Up to 12 hours	Up to 9 hours talk time; 16 hours listen time	Up to 7 hours	Up to 12 hours

1. Features adaptive power, which optimizes for range and talk time to save battery life and maximize density.
 2. Performance depends on battery type and may vary by device.

3. Answer/ignore voice commands are currently for smartphone only.
 4. Unlimited talk time with deluxe charging cradle kit, comes standard with Savi 8245 office and UC Series. Available as an accessory with 8240 Office and UC Series.

TECHNOLOGY LEGEND

MDA220 USB

The MDA220 USB accepts both corded and wireless USB headsets. Lets users connect to and switch between calls from PCs and desk phones.⁵

MSRP \$149.95

5. For a list of Poly headsets that are compatible with MDA220 USB, visit poly.com/us/en/support/compatibility-guide.

A2DP

A Bluetooth profile that allows high-quality audio content to be streamed from one device to another. Listen to streaming media, music, and navigation through your headset.

Active Noise Canceling (ANC)

Technology that reverses surrounding sound waves to cancel low-frequency noise in order to isolate and minimize ambient noise the user can hear.

Acoustic Fence

Technology that uses a noise canceling microphone and an additional omnidirectional microphone to block out background noise.

Adaptive Power

Automatically downshifts to low power when the wireless headset is close to the base to save battery life and maximize density.

Advanced Hybrid Active Noise Canceling

Uses four microphones and three ANC settings for greater background noise reduction compared to standard ANC.

Close Conversation Limiting

Technology that optimizes your voice, while minimizing nearby background noise.

Digital Signal Processing (DSP)

Mathematical manipulation of an information signal to actively reduce background noise for improved sound quality, including equalization, acoustic echo cancellation, noise reduction, and audio leveling.

Dynamic EQ

Optimizes voice quality on calls and automatically adjusts EQ settings when listening to music or for multimedia playback.

Hi-Fi Stereo

Full-range, dual-channel audio playback capable of frequencies from 20 to more than 20,000 Hz.

Immersive Audio

Specially designed ear cushions and headband reduce background noise for increased clarity and comfort.

Smart Sensor Technology

Built-in sensors deliver automatic functionality, such as answering a call by placing the headset on and automatically transferring calls between smartphone and headset.

SoundGuard

Acoustic limiting for protection against sounds exceeding 118 dBA per Telecom Industry Standards.

SoundGuard DIGITAL

All the benefits of SoundGuard plus anti-startle protection, which detects and eliminates sudden increases in sound, and time-weighted average (TWA) control, which prevents average daily sound exposure from exceeding 85 dBA.

Wideband

Frequency range up to 6,800 Hz. Meets TIA-920 standard for genuine wideband response.
