

KEY CONSIDERATIONS FOR ZOOM ROOMS

DEPLOYMENT GUIDE

Video conferencing continues to be an essential investment for companies to prioritize as they strive to ensure productivity and collaboration across hybrid workforces. With all the video conferencing solutions to choose from, how can you be sure which will be the best for you and your team? Poly is here to help. In this guide, we will share key considerations when deploying Zoom Rooms.

01

Your Choice of Compute

When you choose Zoom Rooms as your platform service, you can select between an Android or Windows experience. So which one is better? There's really no wrong choice but it's worth exploring your options and pick what best fits your organization's needs.

Whether you choose Android or Windows, Poly's lineup of meeting room solutions certified for Zoom Rooms are easy to install, manage, and best of all, easy to use.

MEETING SPACE SIZE	ANDROID BASE SOLUTION	WINDOWS BASED SOLUTION
SMALL ROOM	 <p>Poly Studio X30 with TC10</p>	 <p>Poly Studio Small Room Bundle for Zoom Rooms</p>
MEDIUM ROOM	 <p>Poly Studio X50 with TC10</p>	 <p>Poly Studio Medium Room Bundle for Zoom Rooms</p>
LARGE ROOM	 <p>Poly Studio X70 with TC10</p>	 <p>Poly Studio Large Room Bundle for Zoom Rooms</p>

02

Choose Zoom Certified Hardware

Every room has its own needs based on its location in the office and of course the size. Make sure you deploy hardware certified for Zoom Rooms to avoid performance issues. Don't compromise when it comes to your video endpoints. You can have boardroom quality audio and advanced camera capabilities for all room sizes.

Poly's smart audio and video technologies enhance your meeting experience. Poly DirectorAI smart camera technology automatically chooses between different framing and tracking modes while Poly NoiseBlockAI and Acoustic Fence technologies detect and block out distracting background noises. IT decision-makers can be confident that in room participants are seen and heard crystal clear – no matter where they are in the room.

03

Drive Adoption with a Controller

You shouldn't have to worry about how to launch your Zoom meeting. Consider deploying an intuitive Zoom Rooms controller, like the **Poly TC8** and **TC10**, that allows users to start or join a Zoom meeting with one simple touch.

Poly TC10 can also be used as a meeting room scheduler so employees can check availability and schedule any bookable space!

04

Take Advantage of Services

Implementing a return-to-the office strategy is no easy task, but we've got your back.

We encourage IT leaders to invest in services to ensure day-to-day operations run smoothly. Poly offers service solutions that make collaboration better for your employees, no matter where they work. And if a project gets dropped in your lap that you aren't sure you have the knowledge or the man hours to handle it, we can help.

POLY+ BENEFITS:

- Unlimited, global priority response 24x7 technical support.
