

Office Communicator Audio Setup

To access the Cisco IP Communicator Audio Tuning Wizard:

1. Locate the **menu** with the small down arrow.
2. Select **Tools** then **Set Up Audio a Video**.

3. If the headset is a Microsoft Certified version the **Headset or Handset** setup screen will appear first.

Else, the **Speaker/Microphone or Speakerphone** screen will appear first.

The **Sounds** and **Video** screens will follow.

4. Use the drop down boxes to choose the correct device on each screen.

5. Click Next and follow the instructions on each successive screen.
