

## Voyager™ PRO UC B230-M™ Quick Setup Guide

### Welcome:

Using a Plantronics Voyager PRO UC headset for PC calls will deliver a simpler, more comfortable and better sounding audio experience than you could get using just your computer's internal microphone and speaker.

### Voyager PRO UC B230-M Key Features:

- Manage PC and mobile phone calls from a single headset
- Smart Sensor technology for a seamless user experience
- Dual-mic Audio IQ2 DSP for noise cancellation
- Wideband audio for clear PC calls
- Portable, Bluetooth® mini USB adapter for always-ready PC connectivity

OPTIMIZED FOR  
Microsoft® Lync™

### Getting started:

The Plantronics Voyager PRO UC headset is ready to use with your computer and **Microsoft® Lync™**.

1. Connect your USB adapter to the computer. If this is the first time you are connecting, wait for the installation process to complete. Restart the computer if directed to do so.

### Configuring Microsoft Lync to always route call audio to the headset:

2. Click on the Options button in the main Microsoft Lync window.
3. Select the **Audio Device** option.
4. Choose your Plantronics headset for **Audio Device**.
5. Check the **Also Ring** box for **Secondary Ringer** and choose your PC speakers from the drop down menu if you would like them to ring for incoming calls.
6. In this screen you can also test and adjust volumes.
7. Click **Ok** when finished.

*Note: USB configuration settings are unique for each USB port. If you connect the headset to a different port you will need to make these changes again to set behavior for that USB port.*

# Making and Receiving Calls with Microsoft Lync

## To MAKE a call:

To call an existing contact, click on the drop down next to their name (1) and select the number you would like to call (2).

You can also enter a phone number manually using the search box located at the top of the main Microsoft Lync screen (3).

When a call is placed, a call window will open and the audio will be routed to your headset.

## To RECEIVE a call:

When you receive a call, a notification window will appear in the lower right corner of your computer screen (4).

To answer the call, use the controls on your headset or click on the call notification window (5).

## To REDIRECT a call:

You can also redirect a call by clicking **Redirect** (6) and choosing one of the options given.
